Thank You for Your Payment

Your payment has been received.

Thank you for using Menucool JavaScript Tooltip (MC11).

The Tooltip license for your website cia-it.com is: 245t9

You can get the source code by clicking the download button in
http://www.menucool.com/tooltip/javascript-tooltip.

Then open the tooltip.js file with Notepad, and update the license property as:
var tooltipOptions=
{
... ...
license: "245t9"
};

- The license is issued on a per-domain basis (valid for your domain and its sub-
domains). It will disable the purchase reminder when the widget is running under the
domain;
- Under local development environment(localhost server or local file path), you can
use the license "64628" to disable the purchase reminder that comes out periodically.
- The tooltip.js file will use its own match pattern code to verify the license with the
domain name on the browser's address bar. No other services will be involved for the
verification.
- The license is valid forever for future upgrades/releases with no requirement to
renew.
- Your browser may have cached the JavaScript file that is before the license update.
Please refresh the page if you are still getting the purchase reminder.
- Troubleshooting: http://www.menucool.com/2457/Troubleshooting-Request

We've also sent you an email with the license information. If you cannot find it in your
ph.boussaroque@cia-it.com, please also check the junk folder.
